Project Name	ESTIMATION OF CROP YIELD USING DATA ANALYTICS

The image shows a screenshot of a web browser displaying the IBM Cognos Analytics login page and dashboard. The browser's address bar shows the URL: `login.ibm.com/authorize/mifm/aps/authorize?PolicyId=urn:ibm:security:authentication:asf:basic:password&Target=https%3A%2F%2Flogin.ibm.com%2Fclick%2Fendpoint%2Fdefault%2Fauthorize...`. The login form is titled "Log in to IBM" and includes a text input for the ID/Mid (containing "soundappan894@gmail.com"), a "Remember me" checkbox, and a "Continue" button. Below the form, there is a link to "Create an IBMid" and a link to "Contact the IBMid help desk".

Below the login page, the dashboard is visible. The header includes links for "Contact", "Privacy", "Terms of use", "Accessibility", and "Cookie preferences". The main content area features a welcome message: "Hello. Welcome to Cognos Analytics with Watson." and a "Watch video" button. A sidebar on the right contains a user profile for "Soundappan A (e018334...)" and a list of links: "My schedules and subscriptions", "Log my session", "About", "Manage product subscription", "Privacy", "Cookie Preferences", "IBM Cognos Analytics Mobile", and "Log out".

At the bottom, there is a "Quick launch" section with four tiles: "Upload data" (Upload or drag and drop spreadsheets, csv files, and other data sources), "Prepare data" (Use data modules to clean and connect data from multiple resources), "Exploration" (Quickly find unbiased answers by identifying trends in your data with data exploration), and "Present data" (Create sophisticated, multi-page, multi-query dashboards, reports, or stories).
